Jose Enrique Leyva N.

Full-Stack & Mobile Developer

PROFILE

Full-stack and mobile developer with 10+ years delivering production-grade applications across iOS, Flutter, and backend systems. Proven track record building fintech products end-to-end, integrating banking services, and shipping to App Store and Play Store. Strong focus on scalability, code quality, and AI-assisted development.

EXPERIENCE

Full-Stack Software Developer

May 2018 – Present

Spendit AG

- Lead developer & release owner for mobile apps (iOS & Flutter)
- Built spendit / myBenefits from scratch in Dart / Flutter (iOS & Android)
- Integrated Solaris Bank for banking functionality
- Delivered Apple Pay certification (approved) and Apple Watch wallet payments
- Applied GitHub Copilot for AI-driven refactoring and code quality improvements
- Designed and implemented REST microservices (Scala, AWS)
- Managed CI/CD pipelines (CircleCI, Fastlane) and store releases

iOS Developer

Apr 2017 – May 2018

Outbank (Verivox GmbH)

- Feature development & fixes for a production banking app (Swift, RxSwift)
- Contributed to macOS application

iOS Developer
